SEE CARE SHARE

Play your part

Three ways to look out for each other at work.

SEE

Be present

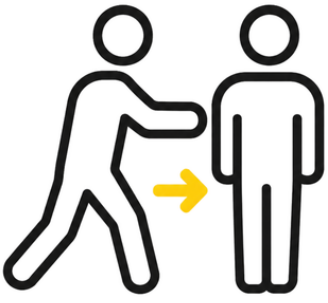

Focus on the task in hand. Stay alert to hazards that could affect you or the people around you.

CARE

Be authentic

Take time to check in with people. Ask how they're doing, listen to any safety or wellbeing concerns and offer support.

SHARE

Step in

Act when you spot a hazard or unsafe practice. Recognise and share good safety practice so others can learn from it.
