# Simpler Recycling
Training

We have created two e-learning courses to help our people be compliant with the Simpler Recycling legislation:

1. Training for on-site managers in **England** on how to implement this legislation (mandatory)
2. Training for **all our people** on how to properly recycle (managers should enrol you)

You can access them on the following platforms, depending on your integration date:
- CH&CO: AccessPlanit
- Compass: MyLearning

Speak to your Learning and Development Business Partner if you need assistance.
