

What are the hazards and how might they harm?

Electric shock as a result of contact faulty equipment

Impact or crush injuries caused by collision with people

Back and muscle strains from manual handling,

Robotic cleaner

STCCL 27

Safe System of Work

1. Only use the robotic cleaner if you have been trained to do so.
2. Follow the manufacturer's instructions.
3. Visually check equipment for any damage prior to use. Report damage to your manager and do not use damaged equipment.
4. Do not handle the robotic cleaner with wet hands or if it has become wet.
5. Manual handling precautions must be observed when moving the machine into position
6. Only use the robotic cleaner when pedestrian traffic is minimal and only in mapped locations.
7. Do not use it in crowded locations, on steep slopes, near stairs or outside.
8. Never sit on or ride on the robot.
9. Do not use it near combustible materials or chemicals.
10. Always turn equipment off and disconnect it from the charging point before cleaning it.
11. Only use the chemical specified for the equipment and do not spray it directly onto the equipment.
12. Only use the charger provided for the unit being charged and visually inspect for damage before use.

If you have any concerns, stop and speak with your line manager before proceeding
