

our mini guide for...

# Descaler

# DELPHIS\*

\*eco PROFESSIONAL CLEANING

## Application and Directions

**Machine descaling:** Fill dishwasher with fresh water. Add sufficient Descaler to the water to produce a 10-20% solution (100-200ml/ ltr) depending on degree of scaling. Turn machine on for 10-15 minutes then drain and inspect. Repeat process if required. Drain and rinse thoroughly. Leave door open and allow to dry.

**Soaking:** (kettles, irons, bain maries, etc.) Dilute at 1:5-1:20 in warm water dependent on the degree of scale. Fill the item or soak in solution until the scale dissolves. Scrub if required to remove heavy deposits. Rinse thoroughly and allow to dry.

**Cement and concrete:** Apply neat and soak for up to 1 hour. Scrub if required to remove heavy deposits. Rinse thoroughly and allow to dry.

**CIP, pipework and radiators:** Dilute at 1:5 parts cold water and re-circulate in pipework. Re-circulate CIP cleaners with cold water only to remove any chemical residues.

**Proper dosage saves cost and minimises environmental impact:** Delphis Eco encourage proper dosage and users to reduce waste going to land fill by recycling empty bottles.

## Main Use

## COSHH

## Health and Safety

Use only as directed. Do not mix different cleaners. Seek medical attention if in discomfort or if any symptoms persist.

**Eye Contact:** Avoid contact with eyes, if product gets into eyes, rinse with water.

**Skin Contact:** Avoid contact with skin, if product gets onto skin wash with water and remove any contaminated clothing.

**Ingestion:** Do not drink, if swallowed drinking water may be beneficial, do not induce vomiting.

**Inhalation:** Avoid inhaling product, move to fresh air if in discomfort.

don't forget PPE.. 

Always wear the correct protective clothing if required. For best results we recommend using the correct dosing and colour coded microfibre cloths - please ask your manager for details.

how to dispose...

Dirty, used washing solution should be disposed of via drains that lead only to foul sewers. Do not allow detergent solutions to contaminate surface water drains. In the event that concentrated product should need to be disposed of, run small amounts to foul waste, diluting with plenty of water. For larger quantities, seek advice on disposal from the local authorities. Delphis Eco products are packed in fully recyclable containers. Empty containers should be rinsed thoroughly, the washings being run to foul waste. The containers may then be sent for recycling. Dispose of all waste in a responsible manner. Be aware of the environment.
