Stage 1	See Manufacturers requirements
Stage 2	

First Aid Information:
(SDS sec. 4.1)

Product Concentrated

At Use Dilution

Firefighting measures:
(SDS sec. 5.1)

Special requirements:
(SDS sec. 7.2)

Eye contact	If in eyes: Flush eyes immediately with plenty of water or isotonic water (20-30 °C) for at least 5 minutes and continue until irritation stops. Remove contact lenses. Make sure to flush under upper and lower eyelids. If irritation continues, contact a doctor. Continue flushing during transport.
Skin contact	Avoid contact with skin, if product gets onto skin wash with water and remove contaminated clothing. If eye irritation persists: Get medical advice/attention
If inhaled	Inhalation: Avoid inhaling product, move to fresh air if in discomfort. If eye irritation persists: Get medical advice/attention
If swallowed	Ingestion: Do not drink, if swallowed drinking water may be beneficial, do not induce vomiting. If eye irritation persists: Get medical advice/attention

Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.
Store in a cool dry room. Do not mix with other chemicals.

Accidental Release Measures
<ul style="list-style-type: none"> • If an accidental release occurs ensure people and colleagues are moved away. • Ensure the spill is dealt with by trained colleagues (i.e. know how to deal with spills and how to use spill kits) and wear appropriate PPE. • Follow the Immediate Spill Response Plan contained within the Environment Toolkit and the Unit Managers Emergency Manual. • If you have any queries please contact your HSE Manager.
