Use a dust pan and brush to clean up broken glass

Safety Task Card

Tray conveyors and carrousel

STCCS 49

Unit Managers – use page overleaf to list any hazards and control measures specific to your site which are not listed below

Safe System of Work

1. Wherever practicable, ensure that work tasks are rotated to avoid long periods of repetitive work activity.
2. Keep clothing and oven cloths out of reach of rotating parts to prevent them from becoming entangled.
3. Dispose of any broken glass and crockery by putting it in the designated broken glass and crockery bin or wrap it securely in cardboard before placing it in general waste.
4. Clean up spillages as they occur and use wet floor warning signs when appropriate.

If you have any concerns, stop and speak with your line manager before proceeding.
