Cutlery polishers

Safety Task Card

STCCS 61

Unit Managers – use page overleaf to list any hazards and control measures specific to your site which are not listed below

Safe System of Work

1. Equipment must be on a firm and perfectly level surface.
2. Ensure the lid is down before switching the machine on.
3. All operating and isolating switches should be conveniently accessible.
4. Ensure the lid is down before switching the machine on.
5. Keep hair, hands clothing and cloths away from moving machine parts.
6. Cutlery must be clean and wet or come directly from the dishwasher.
7. Turn equipment off, disconnect from the power supply before attempting to clear a blockage.
8. Take care when handling cutlery, in particular when clearing a blockage, to avoid cuts or puncture injuries.
9. Turn equipment off and disconnect from the power supply before changing the polish granules.
10. Clean up spillages as they occur and use wet floor warning signs when appropriate.

If you have any concerns, stop and speak with your line manager before proceeding.
